Coming Soon! New Online Banking Security Feature Begins July 9th

Effective Thursday, July 9th, 2026, IBEW 26 Federal Credit Union will be enabling new security features in our [Online Banking platform](#). These security features will help ensure that your IBEW 26 Federal Credit Union online accounts are protected from scammers, fraudulent access, and other cyber threats. **As part of this rollout, all current users will be required to select new challenge questions/answers beginning July 9th as well as set up phone numbers which are able to receive one-time passcodes (OTP) for each login going forward.**

Please make sure that the phone numbers currently listed for your online account are correct. If the phone numbers on your online profile are not up to date, you will not be able to successfully login to your Online Banking. You are able to add up to five (5) phone numbers to receive the OTP by either text message or phone call. As part of this security enhancement, any attempt to login to your accounts from an unknown device, different location, web browser, etc. will prompt the system to ask you one of your challenge questions. However, logging in from the device or location used to set up your challenge questions will only require use of the OTP.

If you have any questions regarding these changes, please contact the Credit Union at 301-306-0610.

Thank you for your patience while we navigate this update!

Steps to check and update your phone number:

1. Log into [online banking](#)
2. Click "Settings" in the upper right-hand corner
3. Click "Profile"
4. Scroll down to "Phone Number" to view your designated number
5. Update accordingly and SAVE

Traveling?

- Please call our office to provide travel dates for debit & credit card use -- this can prevent your card being shut off due to suspicious, out-of-state activity: 301-306-0610.
- Please note that only credit cards can be used internationally (and require travel date notification).

Keep Your Account Safe!

- Download [Card Valet](#) to turn your card on and off, and set parameters.
- Never swipe your card if the chip declines, as this can lead to higher risk of fraud.
- Request an anti-skimming card protector to be mailed to you at no cost.
